

**Feedback Received on the Merit-based Incentive  
Payment System (MIPS) Value Pathways (MVP)  
Candidate for Consideration for the  
2025 Performance Year  
Dermatological Care MVP**

## MVP Candidate Feedback Process

The MVP Candidate Feedback Process is an opportunity for the general public to participate in the MVP development process and provide feedback on MVP candidates before they're potentially proposed in rulemaking. Learn more about the [MVP Candidate Feedback Process](#) on the QPP website.

**The 2025 MVP Candidate Feedback Period ended on January 29, 2024.**

This document contains the feedback we received during the 45-day MVP Candidate Feedback Period for the [Dermatological Care MVP](#).

**Note:** This document is for 2025 MVP Candidate Feedback only and shouldn't be used as a reference for reporting MVPs in the 2024 performance year. CMS will indicate finalized MVPs exclusively through the Physician Fee Schedule (PFS) Final Rule.

Review the MVP candidate details, and feedback received from the general public below.

**TABLE 1: Dermatological Care MVP**

| Quality                                                                                                                                   | Improvement Activities                                                                                                                     | Cost                      |
|-------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|---------------------------|
| <b>Q130: Documentation of Current Medications in the Medical Record</b><br>(eCQM, MIPS CQM) High Priority                                 | <b>IA_AHE_1: Enhance Engagement of Medicaid and Other Underserved Populations</b><br>(High Weight)                                         | <b>Melanoma Resection</b> |
| <b>Q137: Melanoma: Continuity of Care – Recall System</b><br>(MIPS CQM) High Priority                                                     | <b>IA_AHE_6: Provide Education Opportunities for New Clinicians</b><br>(High Weight)                                                       |                           |

## Dermatological Care MVP Feedback Received

Below is the feedback we received during the 45-day MVP Candidate Feedback Period for the Dermatological Care MVP. We didn't include feedback considered out of scope to the draft 2025 MVP candidate.

**Feedback:** One commenter recommended the removal of AAD18: Avoidance of Opioid Prescriptions for Closure and Reconstruction After Skin Cancer Resection. The commenter believes the objective of the measure results in practicing medicine as an insurance provider and goes against the responsibility of the physician to do no harm.

**Feedback:** One commenter recommended the addition of the following quality measure: Q503: Gains in Patient Activation Measure (PAM®) Scores at 12 Months (PAM® Performance Measure, PAM®-PM).

**Feedback:** A couple commenters expressed support for this MVP.

**Feedback:** A few commenters didn't agree with the broad dermatology MVP candidate. A couple commenters recommended narrowing the scope of the MVP to better represent the two areas of dermatology, noted as medical and surgical. Comments suggested a focus on skin cancer, a neoplastic disease, which has a cost measure as well as clinically relevant quality measures allowing for meaningful measurement.

**Feedback:** One commenter expressed concerns with the lack of meaningful relationships between quality, cost measures and improvement activities within the MVP which may unfairly evaluate and compare dermatologists from the two different areas of focus.

**Feedback:** One commenter expressed concern regarding the limited number of eQMs included in this MVP. Another commenter supported the eQMs available but recommended the addition of Q374: Closing the Referral Loop: Receipt of Specialist Report; Q238: Use of High-Risk Medications in Older Adults; and Q321: CAHPS for MIPS Clinician/Group Survey (CAHPS Survey Vendor) in order to provide additional eQCM options.

**Feedback:** One commenter recommended the inclusion of Q440: Skin Cancer: Biopsy Reporting Time – Pathologists to Clinician and Q397: Melanoma Reporting to allow subspecialties like dermatopathologists to participate in the MVP.
