How to Use this Guide

Please Note: This guide was prepared for informational purposes only and isn't intended to grant rights or impose obligations. The information provided is only intended to be a general summary. It isn't intended to take the place of the written law, including the regulations. We encourage readers to review the specific statutes, regulations, and other interpretive materials for a full and accurate statement of their contents.

Return to Table of Contents

Click this icon (on the bottom left of each page) **to return to the table of contents.**

Hyperlinks

Hyperlinks to the [Quality Payment Program website](#) and downloadable resources are included throughout the guide to direct the reader to more information and resources.

Getting Started

What to Expect During 2025 Submission

Reporting Update to CQM #510: First Year Standardized Waitlist Ratio (FYSWR) for the Optimal Care for Kidney Health MVP

CMS has received several inquiries about technical challenges with reporting Quality Measure 510: First Year Standardized Waitlist Ratio (FYSWR), which is available only as a MIPS clinical quality measure (CQM). After assessing the issue, CMS determined that it's not technologically feasible to calculate both the 1st and 2nd performance rates using the existing submission JavaScript Object Notation (JSON) structure. As a result, only the 2nd submission criteria will be accepted when submitting the measure for the 2025 performance period.

Electronic Case Reporting Measure Suppression

The Centers for Disease Control and Prevention (CDC) temporarily paused electronic case reporting registration (learn more in this fact sheet) and onboarding of new health care organizations (HCOs) to establish a more efficient and automated onboarding process. As a result, some MIPS eligible clinicians may be unable to meet the electronic case reporting registration and onboarding requirements by the end of the 2025 performance period.

To avoid adverse consequences beyond the MIPS eligible clinicians' control, we're suppressing the Electronic Case Reporting measure for the 2025 performance period for the MIPS Promoting Interoperability performance category for the CY 2025 performance period/2027 MIPS payment year.

The measure must still be reported. MIPS eligible clinicians will meet the measure requirements by attesting either "Yes" or "No" to being in active engagement with a public health agency or claiming an applicable exclusion. MIPS eligible clinicians who report the suppressed Electronic Case Reporting measure will receive full credit for the measure.

What to Expect During 2025 Submission

As a reminder, we eliminated the Preliminary Score and preliminary category level scores from the submission experience beginning with the data submission period for the 2023 performance year. The increasing volume of scoring information that can change after the submission period made this information too unreliable.

What should we expect during submission?

When you sign into the QPP website during the submission period, you'll see:

- Measure-level scores for the quality measures you've submitted to date, and a sub-total of points earned for these measures.
 - NOTE: You **won't** see administrative claims measures or the CAHPS for MIPS measure during the submission period.
 - If applicable, these measures will be added to performance feedback when we release final scores in June 2026.
- Activity-level scores for the improvement activities you've submitted to date, and a sub-total of points earned for these activities.
- Measure-level scores for the Promoting Interoperability measures you've submitted to date, and a sub-total of points earned for these measures.
- The number of objectives you've reported completely for the Promoting Interoperability performance category.
- An indicator of any performance categories that will be reweighted (if applicable).

What to Expect During 2025 Submission (Continued)

What can change after the submission period?

Several things can change between the close of the submission period and the release of final scores, most of which affect the quality performance category. For example:

What Can Change	How This Can Affect Your Score
Ex. Administrative claims quality measures are calculated	If you can be scored on one of the population health measures, it will increase the number of measures your quality score is based on.
Ex. CAHPS for MIPS measure is submitted	If your practice administered the CAHPS for MIPS Survey measure, this measure will be added to your score after the submission period
Ex. Performance period benchmarks are calculated for quality measures without a historical benchmark	If a measure didn't have a historical benchmark and we can calculate a performance period benchmark, this will change the measure-level score. If you submitted more than 4 measures in your MVP, performance period benchmarks can change which measures count towards your quality score.

When will our 2025 final score be available?

Final scores will be available in summer 2026, and your payment adjustment information will be available approximately 30 days later.

Learn more about final scores, how your scores will be calculated, and what can change after the submission period in the [Scoring Calculations section](#) of this guide.

Getting Started

Accessing the System

In order to sign in to the [QPP website](#) and submit Performance Year 2025 data and/or view data submitted on your behalf, you need:

- An account (user ID and password)
- Access to an organization (a role)

Make sure you sign in during the submission period to review data submitted on your behalf.

You can't submit new or corrected data after the submission period closes.

If you don't already have an account or access, review the following documentation in the [QPP Access User Guide](#) (ZIP, 4MB) so you can sign in to submit, or view, data:

Once you [sign in](#), you can select **Start Reporting** on the main page or **Eligibility & Reporting** from the left-hand navigation bar.

DISCLAIMER:

- All screenshots include fictitious patients and organizations. Screenshots were captured from a test environment, so there may be slight variations between the screenshots included in this guide (including dates) and the user interface in the production system.

Before You Begin

Make sure you are using the most recent version of your browser:

- Chrome
- Edge

Note: Internet Explorer, Safari, Firefox aren't fully supported by QPP.

Getting Started

Organization Type

From here, you'll see the organizations you have permission to access. Most users will only have access to one organization type:

- **Registry** (includes Qualified Registries and QCDRs) or
- **Practice** (**individual**, **subgroup** and/or **group** reporting, all performance categories) or

[Learn how to connect to an organization as a practice.](#)

- **APM Entity** (APM Entity-level quality and improvement activities performance categories data submission) or

[Learn how to connect to an organization as an APM Entity.](#)

Helpful Hint

Click the links, or jump to [Appendix B](#), to review what users associated with each organization type can and can't do and view during the submission period.

If you have access to multiple organization types, you will see them tabbed across the top of the page.

Click an organization type to view the list of associated organizations you can access.

Your organization type will be displayed at the top of the page, followed by a list of the organizations you have permission to access.

Virtual Groups APM Entities Practices

The QPP Participation Status Tool currently includes the following 5 eligibility data:

2025 MIPS eligibility and special statuses based on a review on October 1, 2024 - September 30, 2025. This status is final as a result of the 3rd APM snapshot.

(iframe):

and MIPS APM participation status based on the 3rd APM

MVP Reporting FAQs

Do we have to report the MVP we registered for?

No. You can't report an MVP that you didn't register for, but you can report traditional MIPS (or the APM Performance Pathway, if applicable) instead.

Can we report traditional MIPS as a subgroup?

No. The subgroup participation option is only available for MVP reporting. MIPS eligible clinicians that registered to report as a subgroup would need to report traditional MIPS or the APP as individuals, as a group, or as an APM Entity (if applicable) if they don't report the MVP.

Can data we reported for traditional MIPS count for MVP reporting?

No. Data submitted for traditional MIPS will only be scored under traditional MIPS. MVP data must be submitted with the correct MVP identifier.

Our practice is reporting as a group, and we have clinicians registered to report an MVP as a subgroup. Do we need to submit our Promoting Interoperability data twice?

Yes. Even though you'll be submitting the same data, **there must be 2 distinct submissions**. One submission for the group and a separate submission for the subgroup (including the appropriate subgroup and MVP identifiers).

Reporting Option Selection

Reporting Option Selection

Reporting Overview Page

From the **Eligibility & Reporting** page, select the appropriate option to match how your MVP registration was completed.

Note: Only practices that registered some of its clinicians to report an MVP as a subgroup will see **the Report as Subgroup** option.

Scoring Org 18

Report as Group

Report as Subgroup

Report as Individuals

Reporting Option Selection

Reporting Options

From the **Reporting Option** page, select **Start Reporting** under the MVP selected, during registration.

Only MIPS eligible clinicians and groups can report an MVP.

If you registered to report as an individual or group during the MVP registration period **but are no longer MIPS eligible** after final MIPS eligibility was released, **you won't see the MVP reporting option on this page.**

If you have questions, contact the Quality Payment Program (QPP) Service Center by emailing QPP@cms.hhs.gov, creating a [QPP Service Center ticket](#), or calling 1-866-288-8292 (Monday through Friday 8 a.m. – 8 p.m. ET). Please consider calling during non-peak hours, before 10 a.m. and after 2 p.m. ET. People who are hearing impaired can dial 711 to be connected to a TRS Communications Assistant.

Reporting Option Selection

Subgroup Reporting

If reporting as a subgroup, after selecting **Report as Subgroup** from **Eligibility & Reporting** page the you'll select the appropriate subgroup name you used during MVP registration, shown also, with the assigned Subgroup ID.

dg

Subgroup ID: SG-00001626

Report as Subgroup

The subgroup name and ID will be displayed in the left navigation

The name and ID of the MVP you registered for will be displayed in the page header.

Submitting Data: MVP Identifiers

Submitting Data

MVP Identifiers (IDs) for PY 2025 Data Submission

Each MVP submission must include the related MVP ID, signaling your intent to report the measure and activity data for your selected MVP. **Any data submitted without the necessary MVP ID will be attributed to traditional MIPS instead of the MVP.**

MEDICARE PART B CLAIMS MEASURES (Quality)

- If you didn't append the MVP ID to at least one claim associated with your MVP quality reporting, your Medicare Part B claims measures will be attributed to a quality score in traditional MIPS (and not the MVP).
- Review the [2025 Part B Claims Measure Quick Start Guide](#) (PDF, 2MB) for more information.

MANUAL ATTESTATION (Improvement Activities and/or Promoting Interoperability)

- Your data will be attributed to your MVP reporting when you select "MIPS Value Pathways" from the Reporting Options page.

FILE UPLOAD and API (All Categories)

You must include the appropriate MVP ID in every file you upload or API submission that includes MVP measure and/or activity data. If you upload a file without the MVP ID, that data will be attributed to and scored in traditional MIPS (not the MVP).

- Review the [2025 QRDA III Implementation Guide for Eligible Clinicians on the Electronic Clinical Quality Improvement \(eCQI\) Resource Center](#) for more information about including an MVP ID in your QRDA III file submission.
- Review the [QPP JSON Developer documentation](#) for more information about including an MVP ID in your QPP JSON file or API submission.

Reporting Summary

The information below shows what you've submitted so far.

Submitted Data

Created: — Submission ID: —

MIPS Value Pathways (MVP) reporting Upload file

Upload a formatted QPP JSON or QRDA III file with Quality, Promoting Interoperability measures, and Improvement Activities. You can report to individual performance categories by selecting "view/edit" in each card.

Each file needs the MVP identifier (and subgroup identifier if applicable). MVP data without an identifier will be processed as Traditional MIPS reporting.

☒ All changes are immediately auto-calculated.
Uploaded files **can overwrite** (delete) previous uploaded from other members of your organization if the data is for the same performance category (ex. Quality), reporting option (ex. MVPs), and participation option (ex. Group).

More information and guidance may be found on this page under [resources](#).

Having trouble uploading your file?

Please see the 2025 Data Submission Troubleshooting FAQs on the [QPP Resource Library](#).

Submitting Data

File Upload (Continued)

If your upload is successful, you will see an indicator of success.

If there's an error with your file, you'll see a message indicating that the data couldn't be processed and have access to a detailed error report. Click Download Report for details of the submission issue to send to your Third Party Intermediary. Work directly with your Third Party Intermediary to correct any errors and resubmit your file.

Please consider calling during non-peak hours, before 10 a.m. and after 2 p.m. ET. People who are hearing impaired can dial 711 to be connected to a TRS Communications Assistant.

Submitting Quality Data

Submitting Quality Data

Reporting Update to CQM #510: First Year Standardized Waitlist Ratio (FYSWR) for the Optimal Care for Kidney Health MVP

To report the data required for the 2nd submission criteria, you must continue to collect and calculate the 1st submission criteria to ensure reporting eligibility even though it won't be submitted.

For purposes of data submission, you must submit the measure as a single stratum, non-proportion measure with the numerator and denominator collected for submission criteria 2 only as outlined in the [measure's specification](#). The measure has also been updated on the [2025 QPP Measures Repository on GitHub](#).

- **Scoring Impact:** The revised data submission requirements don't affect how the measure is scored; the measure's score is determined by the 2nd performance rate.

Submission criteria 2 measures the ratio of the observed number of waitlist events to the number of expected waitlist events:

- **DENOMINATOR (SUBMISSION CRITERIA 2):** The denominator for the First Year Standardized Waitlist Ratio (FYSWR) is the total number of patients under the age of 75 in the practitioner group according to each patient's treatment history for patients within the first year following initiation of dialysis.
- **NUMERATOR (SUBMISSION CRITERIA 2):** The ratio of the observed number of waitlist events in a practitioner group to the model-based expected number of waitlist events.

Your submission will be rejected for the 2025 submission period if:

- You submit the measure with both submission criteria (stratum).

Submitting Quality Data (continued)

Upload Your Quality Measures

You can upload your own QRDA III or QPP JSON file with your eCQMs or MIPS CQMs by clicking **View & Edit** in the Quality section of the Reporting Overview and then **Upload File**:

Quality

This performance category assesses the quality of the care you deliver. You pick the quality measures that best fit this group.

[Learn more about Quality requirements for traditional MIPS.](#)

NOT REPORTEDView and edit >

OPTION 1 Manually Upload Data

Submit Quality Data via data upload. This method allows for the upload of QPP (JSON) format or QRDA-III files.

Upload File

Having trouble uploading your file?

Please see the 2025 Data Submission Troubleshooting FAQs on the [QPP Resource Library](#).

NEW for PY 2025: A CEHRT ID will now be required when submitting eCQM data for the quality performance category. For **detailed instructions on how to generate a CMS EHR Certification ID**, review pages 23-25 of the [CHPL Public User Guide \(PDF, 1.21MB\)](#). A **valid** CMS EHR Certification ID for the 2025 performance period will include **"15C"** (as it did in PY 2024) **or "2025C"**.

Attesting to Promoting Interoperability Data

Electronic Case Reporting Measure Suppression

The Centers for Disease Control and Prevention (CDC) has temporarily paused electronic case reporting registration ([learn more in this fact sheet](#)) and onboarding of new health care organizations (HCOs) to establish a more efficient and automated onboarding process. As a result, some MIPS eligible clinicians may be unable to meet the electronic case reporting registration and onboarding requirements by the end of the 2025 performance period.

To avoid adverse consequences beyond the MIPS eligible clinicians' control, **we're suppressing the Electronic Case Reporting measure** for the MIPS Promoting Interoperability performance category for the CY 2025 performance period/2027 MIPS payment year.

The measure must still be reported. MIPS eligible clinicians will meet the measure requirements by attesting either "Yes" or "No" to being in active engagement with a public health agency or claiming an applicable exclusion. MIPS eligible clinicians who report the suppressed Electronic Case Reporting measure will receive full credit for the measure.

Note: Even though the Electronic Case Reporting measure is suppressed, MIPS eligible clinicians who don't report the Electronic Case Reporting measure (or claim an applicable exclusion) will earn zero points for the Promoting Interoperability performance category.

Attesting to Promoting Interoperability Data

Manual Entry (Attestation)

If you don't [upload a file](#), you can also attest to your Promoting Interoperability data by manually entering numerators, denominators, and yes/no values as appropriate to the measure.

Click Create Manual Entry on the **Reporting Overview**, and then again on the **Promoting Interoperability** page.

Promoting Interoperability

This performance category promotes patient engagement and the electronic exchange of health information. You report a defined set of objectives and measures.

[Learn more about Promoting Interoperability requirements](#) 

 NOT REPORTED

Create Manual Entry >

Your Promoting Interoperability Submission

Submit your required measures and view measure-level scores during the data submission period.

Your Promoting Interoperability score will be based on measures and attestations related to e-Prescribing, Health Information Exchange (HIE), Provider to Patient Exchange, and Public Health and Clinical Data Exchange.

[Learn more about Promoting Interoperability](#) 

[Download the submission guide to learn more \(PDF\)](#) 

Create Manual Entry

Attesting to Promoting Interoperability Data

Manual Entry (Attestation) (Continued)

If your Promoting Interoperability performance category is currently weighted at 0%, you will be prompted to confirm that you wish to proceed (click **I Understand** then **Continue**).

- If you click **Continue** and attest to all required data, you will receive a score in this performance category.
- A non-qualifying submission (submitting some but not all required data) **WON'T** override reweighting.

You're Not Required to Submit Data for This Category ✕

Currently, Promoting Interoperability doesn't count towards your final score. If you choose to report data for this category, you'll need to submit all the data required for it to be included in your final score.

By continuing, Promoting Interoperability will be in my final score. This action cannot be undone.

☐ I UNDERSTAND

CANCEL **CONTINUE**

Did you know?

Small practices have a different redistribution when **Promoting Interoperability** is reweighted to 0%

- **Quality:** 40%
- **Improvement Activities:** 30%
- **Cost:** 30%

As you provide the required information on the Manual Entry page, more fields will appear. For example, once you enter your performance period, the CEHRT ID field will appear. You must provide all required information (including measure data).

Attesting to Promoting Interoperability Data

Manual Entry (Attestation) (Continued)

Health Information Exchange Objective

There are 3 options for meeting the Health Information Exchange (HIE) objective:

Option 1:

- Support Electronic Referral Loops by Sending Health Information - requires numerator and denominator values
- Support Electronic Referral Loops by Receiving and Reconciling Health Information - requires numerator and denominator values

Option 2:

- Health Information Exchange: Bi-Directional Exchange

Option 3:

- Enabling Exchange Under TEFCA

The screenshot displays the 'Health Information Exchange' attestation interface. It begins with a title 'Health Information Exchange' and a subtitle 'You have 3 options for meeting Health Information Exchange (HIE) reporting requirements. Choose one of the 3 options below.' The interface is divided into three sections, each representing a different option:

- HIE - Option 1:** This section is titled 'Support Electronic Referral Loops By Sending Health Information' with Measure ID 'PL-MP_1'. It includes a description: 'For at least one transition of care or referral, the MIPS eligible clinician that transitions or refers their patient to another setting of care or health care provider: (1) creates a summary of care record using certified electronic health record technology (CEHRT); and (2) electronically exchanges the summary of care record.' It features a 'Download Specifications' link and a 'Measure Readiness' checkbox. To the right, there are input fields for 'Numerator' (value: 100) and 'Denominator' (value: 100). A 'Completed' status indicator is shown at the bottom right.
- HIE - Option 2:** This section is titled 'Support Electronic Referral Loops By Receiving and Reconciling Health Information' with Measure ID 'PL-MP_4'. It includes a description: 'For at least one electronic summary of care record received for patient encounters during the performance period for which a MIPS eligible clinician is the receiving party of a transition of care or referral, or for patient encounters during the performance period in which the MIPS eligible clinician has never before encountered the patient, the MIPS eligible clinician conducts clinical information reconciliation for medication, medication allergy, and current problem list.' It features a 'Download Specifications' link and a 'Measure Readiness' checkbox. To the right, there are input fields for 'Numerator' (value: 100) and 'Denominator' (value: 100). A 'Completed' status indicator is shown at the bottom right.
- HIE - Option 3:** This section is titled 'Enabling Exchange Under TEFCA' with Measure ID 'PL-MP_5'. It includes a description: 'Provide eligible clinicians with the opportunity to earn credit for the Health Information Exchange objective if they are a signatory to a "Framework Agreement" as that term is defined in the Common Agreement enable secure bi-directional exchange of information to occur for all unique patients of eligible clinicians, and all unique patient records stored or maintained in the EHR, and use the functions of CEHRT to support bidirectional exchange.' It features a 'Download Specifications' link and two radio buttons for 'Yes' and 'No'.

To earn an additional 5 bonus points in this performance category, you can choose to report 1 or more of the remaining, optional measures. There are a total of 5 bonus points available whether you report 1, 2, or all 3 of the optional measures.

Attesting to Promoting Interoperability Data

Manual Entry (Attestation) (Continued)

Once all required data have been reported, the system will notify you and allow you to view your measure-level scores.

Attesting to Improvement Activities Data

Attesting to Improvement Activities Data

Manual Entry (Attestation)

If you don't [upload a file](#), you can attest to your Improvement Activities data by manually entering yes values to indicate you've completed the activity.

Click Create Manual Entry on the **Reporting Overview**, and then again on the **Improvement Activities** page.

Attesting to Improvement Activities Data

Manual Entry (Attestation) (Continued)

All MVP participants receive full credit (40 out of 40 points) in this performance category for attesting to one improvement activity included in the MVP.

Clinicians in an APM reporting an MVP will automatically receive 50% credit in the Improvement Activities performance category as long as some MIPS data is submitted, regardless of performance category.

Once you select Create Manual Entry, you will see a message that 20 (out of 40 possible) points have been awarded based on your APM participation (or for Group reporting, based on having at least one clinician who participates in an APM).

One or more of your clinicians are associated with an Alternative Payment Model. This participation makes your group eligible for 50% credit in the Improvement Activities category.

Attesting to Improvement Activities Data

Manual Entry (Attestation) (Continued)

Once you enter your performance period, you can **search** for your activities by key term or **filter** by weight or subcategory. Check the box next to **Completed** to attest that the activity was performed.

Submitted Measures

Measures That Count Towards Your Score

Measure Name Expand All	Performance Rate	Measure Score
Diabetes: Glycemic Status Assessment Greater Than 9% Measure ID: 001	0.00%	10.00

Review Previously Submitted Data (Continued)

During the submission period, this page will reflect:

- 
- ✓ Medicare Part B claims measures reported by clinicians in a small practice throughout the performance period (available by late January 2026), and
 - ✓ eCQMs or MIPS CQMs that you have uploaded directly or were submitted by a third party (such as a Qualified Registry or QCDR), and
 - ✓ QCDR measures submitted on your behalf by a QCDR

Medicare Part B Claims Measures

Only clinicians in small practices (fewer than 16 clinicians) can report Medicare Part B claims measures. If you don't see your preliminary scores for Part B claims measures, check the QPP Participation Status lookup tool to see if you have the small practice special status.

We'll only automatically calculate a quality score at the group level if the practice also submits data at the group level for another performance category.

We intend to update preliminary Part B claims measure scores on a monthly basis during the submission period (to account for the 60-day run out period for claims measure processing).

During the submission period, this page WON'T reflect:

- × Scoring for the CAHPS for MIPS Survey measure.
- × Scoring on your population health measure.
- × A preliminary score for the quality performance category.

Multiple Quality Submissions from the Same Organization.

Please review the [QPP Submissions Application Program Interface \(API\) documentation](#) for detailed information about API submissions.

We'll keep the most recent data submitted when the data is **submitted the same way** (e.g., via file upload) AND **by the same organization** (e.g., the practice) AND **for the same**:

- ✓ **Performance category** (e.g., quality)
- ✓ **Collection type**
- ✓ **Participation option** (e.g., group)
- ✓ **Reporting option** (e.g., traditional MIPS)

This approach allows practices to correct and resubmit previously submitted data.

Reviewing Data: Quality

Multiple Quality Submissions from the Same Organization. (Continued)

Example 1.

John and Kathy are practice staff at Mountain Medical and support the group's MIPS reporting. Mountain Medical is reporting the Advancing Cancer Care MVP as a group.

John uploaded a file with 2 measures (134 and 143) on <u>Tuesday</u>	Kathy uploaded a file with 2 measures (450 and 451) on <u>Thursday</u>
✓ Quality performance category	✓ Quality performance category
✓ MIPS CQM collection type	✓ MIPS CQM collection type
✓ Group reporting	✓ Group reporting
✓ Advancing Cancer Care MVP	✓ Advancing Cancer Care MVP

The group will be scored on the 2 MIPS CQMs that Kathy submitted on Thursday.

Why? Kathy submitted the most recent data by their organization, through the same submission method, for the same performance category, collection type, participation option, and reporting option.

Multiple Quality Submissions from the Same Organization. (Continued)

Example 2.

Dr. Andrews is a solo practitioner reporting the Advancing Cancer Care MVP.

- She reported 2 quality measures through Medicare Part B claims throughout the performance period.
- She uploaded a file with 2 eQMs (a report she extracted from her EHR) during the submission period.

Dr. Andrews reported 2 measures during the performance period:		Dr. Andrews submitted 2 measures during the submission period:	
✓	Quality performance category	✓	Quality performance category
✗	Medicare Part B claims	✗	eQTM collection type
✓	Individual reporting	✓	Individual reporting
✓	Advancing Cancer Care MVP	✓	Advancing Cancer Care MVP

Dr. Andrews will be scored on all 4 measures.

Why? The 2 measures submitted by file upload won't overwrite the 2 measures submitted through Medicare Part B claims because they were submitted through different methods and for different collection types.

Multiple Quality Submissions from the Same Organization. (Continued)

Example 3.

Steven and Elise are assistant practice managers at Keaton's Oncology Center, which is reporting both traditional MIPS and the Advancing Cancer Care MVP at the group level. Steven oversees their traditional MIPS reporting and Elise oversees their MVP reporting.

Steven uploaded a file with 6 measures on Thursday:		Elise uploaded a file with 4 measures on Friday:	
✓	Quality performance category	✓	Quality performance category
✓	MIPS CQM collection type	✓	MIPS CQM collection type
✓	Group reporting	✓	Group reporting
✗	Traditional MIPS	✗	Advancing Cancer Care MVP

The group will receive a quality score in traditional MIPS (based on the 6 measures Steven submitted) and a quality score for the Advancing Cancer Care MVP (based on the 4 measures submitted by Elise).

- When a group reports both traditional MIPS and an MVP, the group will ultimately receive the higher MIPS final score, either from traditional MIPS reporting (based on traditional MIPS submissions for all categories) or MVP reporting (based on MVP submissions for all categories).

Why? Elise's data didn't overwrite Steven's data because they submitted data for different reporting options.

Reviewing Data: Quality

Measure Information

Measures may be divided into 2 groups:

1. Measures whose performance points count toward your quality performance category score. The measure score will display your performance points (those achieved based on performance in comparison to the measure's benchmark).

Topped-Out Measures

A topped-out measure is one where performance is high with little variation among those reporting the measure – a topped out **process** measure is defined as a measure with a **median** performance rate of 95% or greater (or 5% or less, for inverse measures).

Did you know?

Not all topped out measures are capped at 7 points. To be capped at 7 points, a measure must be topped out for 2 or more consecutive years through the same collection type. Refer to "Seven Point Cap" column in the [2025 Quality Benchmarks](#) file. Measures determined to be impacted by limited measure choice are not subject to the 7-point cap.

Manage Data

Multiple Submissions

Please review the [QPP Submissions Application Program Interface \(API\) documentation](#) for detailed information about API submissions.

When there are multiple Promoting Interoperability submissions for an individual clinician, group, virtual group or APM Entity, we'll score all submissions and assign the highest score to the clinician, group, virtual group, or APM Entity.

A qualifying data submission includes all required performance data, required attestation statements, CEHRT ID, and the start and end date for the performance period. Only qualifying data submissions will override reweighting.

- **We'll no longer assign a performance category score of zero when there are conflicting submissions.**

If you haven't created a manual entry, you will see Create Manual Entry (instead of View Manual Entry.)

Scoring Calculation

Quality Score Calculation: How We'll Get There

We'll calculate your quality score after the data submission period, once we've received all required available data.

(Small practices that submit 1 quality measure qualify for 6 bonus points)

For more information about quality score calculations, refer to the [2025 MVPs Implementation Guide](#) (PDF, 4MB).

Quality Score Calculation

The **Sub-Total** displayed at the bottom of your submitted measures shows how many achievement points you've earned to date based on the measures you've submitted.

This number can change after the submission period.

- For example, this number would increase based on the achievement points earned for the population health measure.

In MVPs, you're required to submit **4 measures**, including one outcome measure which would mean **40 total points** available.

- This number will increase by 10 points after the data submission period if you can be scored on the population health measure.

Quality Score Calculation

Once we calculate your quality score, we'll multiply it by the category weight.

- The weight tells you the maximum number of points the performance category can contribute to your final score.
- Your final score will be between 0 and 100 points.

Your Total Quality Score

Below is how your Total Quality score is calculated based on the measures above.

Category Score		Category Weight	
Points from quality measures that count towards quality score			
	X	Category weight ?	=
Maximum number of points (# of required measures x 10)			Total contribution to final score

Example. When quality is **weighted at 30%**, quality can contribute **up to 30 points** to your final score.

Promoting Interoperability

Promoting Interoperability Score Calculation

We'll calculate your Promoting Interoperability score after the data submission period from the measure scores displayed during the submission period. Then we'll multiply that by the performance category weight to determine how many points the Promoting Interoperability performance category will contribute to your final score.

Measure Score **17 / 20**

Your Total Promoting Interoperability Score

Below is how your Total Promoting Interoperability score is calculated based on the measures above.

Sum of points earned for all required measures

Bonus points earned for reporting optional measures

We no longer display preliminary scores.

For more information about Promoting Interoperability score calculations, refer to the [2025 MVPs Implementation Guide](#) (PDF, 4MB).

Promoting Interoperability

Improvement Activities Score Calculation

We'll calculate your improvement activities score after the data submission period from the activity scores displayed during the submission period. Then we'll multiply that by the performance category weight to determine how many points the improvement activities performance category will contribute to your final score.

Activity Score **20 / 20**

Your Total Improvement Activities Score

Below is how your Total Improvement Activities score is calculated based on the measures above.

Category Score

Category Weight

High Activity Points + Medium Activity Points

+

X

Category weight

=

Total contribution to
final score

Maximum number of points

We no longer display preliminary scores.

For more information about improvement activity score calculations, refer the [2025 MVPs Implementation Guide](#) (PDF, 4MB).

Cost Score Calculation

Cost measures and cost performance category scores are calculated after the data submission period. You'll receive a cost score if you can be scored on at least one cost measure in the MVP you're reporting. We'll only you on the cost measures included in your MVP.

$$\text{Cost Performance Category Score (\%)} = \frac{\text{Points Earned for Scored Measures}}{\text{Total Available Measure Points*}} + \text{Improvement Score (\%)}$$

*Total Available Measure Points = # of scored cost measures x 10

Then we'll multiply your score by the performance category weight to determine how many points the cost performance category will contribute to your final score. It's generally weighted at 30% of your final score.

For more information about cost score calculations, refer to the [2025 MVPs Implementation Guide](#) (PDF, 4MB).

Help and Version History

Where Can You Go for Help?

Contact the Quality Payment Program (QPP) Service Center by emailing QPP@cms.hhs.gov, creating a [QPP Service Center ticket](#), or by phone at 1-866-288-8292 (Monday through Friday, 8 a.m. - 8 p.m. ET). Please consider calling during non-peak hours—before 10 a.m. and after 2 p.m. ET.

- People who are hearing impaired can dial 711 to be connected to a TRS Communications Assistant.

Visit the [Quality Payment Program website](#) for other [help and support information](#), to learn more about [MIPS](#), and to check out the resources available in the [Quality Payment Program Resource Library](#).

Visit the [Small Practices page](#) of the Quality Payment Program website where you can **sign up for the monthly QPP Small Practices Newsletter** and find resources and information relevant for small practices.

Version History

If we need to update this document, changes will be identified here.

Date	Description
03/11/2026	Updated Appendix C to identify the suppressed and truncated measures within an MVP for the 2025 performance period (p. 82).
12/30/2025	Original version.

Appendices

Data Submission and the Automatic EUC Policy

The tables on the following slides illustrate the Performance Year 2025 MIPS performance category reweighting policies that CMS will apply under the MIPS automatic EUC policy to affected clinicians who submit MIPS data as individuals.

This policy was triggered by the following events for the 2025 performance year:

- Designated counties* in California for wildfires
- The designated counties in Texas for severe storms, straight-line winds, and flooding (Counties updated 08/06/2025)

Please refer to Appendix B (beginning on p. 8) of the [2025 MIPS Automatic Extreme and Uncontrollable Circumstances Policy Fact Sheet \(PDF, 462KB\)](#) for a list of these designated counties and parishes.

Note: Participants in APMs are eligible to receive automatic credit in the improvement activities performance category; for these MIPS eligible clinicians, submitting data for the quality and/or Promoting Interoperability performance categories will initiate a score in the improvement activities performance category, which will override reweighting of this performance category.

Data Submission and the Automatic EUC Policy (Continued)

Table 1: Reweighting for Clinicians Not in a Small Practice

Data Submitted	Quality Category Weight	Promoting Interoperability Category Weight	Improvement Activities Category Weight	Cost Category Weight	Payment Adjustment
No data	0%	0%	0%	0%	Neutral
Submit Data for 1 Performance Category					
Quality Only ¹	100%	0%	0%	0%	Neutral
Promoting Interoperability Only ¹	0%	100%	0%	0%	Neutral
Improvement Activities Only	0%	0%	100%	0%	Neutral
Submit Data for 2 Performance Categories					
Quality and Promoting Interoperability ¹	70%	30%	0%	0%	Positive, Negative, or Neutral
Quality and Improvement Activities	85%	0%	15%	0%	Positive, Negative, or Neutral
Improvement Activities and Promoting Interoperability	0%	85%	15%	0%	Positive, Negative, or Neutral
Submit Data for 3 Performance Categories					
Quality and Improvement Activities and Promoting Interoperability	55%	30%	15%	0%	Positive, Negative, or Neutral

¹ APM participants are eligible to receive automatic credit in the improvement activities performance category; for these MIPS eligible clinicians, submitting data for the quality and/or Promoting Interoperability performance categories will initiate a score in the improvement activities performance category (40 out of 40 possible points), and they'll receive a final score based on the data submitted and available for scoring.

Data Submission and the Automatic EUC Policy (Continued)

Table 2: Reweighting for Clinicians in a Small Practice

Data Submitted	Quality Category Weight	Promoting Interoperability Category Weight	Improvement Activities Category Weight	Cost Category Weight	Payment Adjustment
No data	0%	0%	0%	0%	Neutral
Submit Data for 1 Performance Category					
Quality Only ²	100%	0%	0%	0%	Neutral
Promoting Interoperability Only ²	0%	100%	0%	0%	Neutral
Improvement Activities Only	0%	0%	100%	0%	Neutral
Submit Data for 2 Performance Categories					
Quality and Promoting Interoperability ²	70%	30%	0%	0%	Positive, Negative, or Neutral
Quality and Improvement Activities	50%	0%	50%	0%	Positive, Negative, or Neutral
Improvement Activities and Promoting Interoperability	0%	85%	15%	0%	Positive, Negative, or Neutral
Submit Data for 3 Performance Categories					
Quality and Improvement Activities and Promoting Interoperability	55%	30%	15%	0%	Positive, Negative, or Neutral

² APM participants are eligible to receive automatic credit in the improvement activities performance category; for these MIPS eligible clinicians, submitting data for the quality and/or Promoting Interoperability performance categories will initiate a score in the improvement activities performance category (40 out of 40 possible points), and they'll receive a final score based on the data submitted and available for scoring.

Submission Period: QPP Access and Permissions by Organization Type (Continued)

This table provides a snapshot of what you can and can't do/view regarding MVP reporting based on your access (role) and organization type during the submission period (January 2 – March 31, 2026).

With this Access	You CAN	You CANNOT
Staff User or Security Official for a Practice (includes solo practitioners)	✓ Access information about eligibility and special status at the individual clinician and group level ✓ View information about performance category reweighting (including from approved exception applications) ✓ Submit data on behalf of your practice (as a group, subgroup and/or individuals) ✓ Submit opt-in elections on behalf of your practice (as a group and/or individuals) ✓ View data submitted on behalf of your practice (group, subgroup and/or individual) ✓ View measure-level scoring for Part B claims measures reported throughout the performance period • This data will be updated during the submission period to account for claims received by CMS until March 1, 2025 ✓ View measure and activity-level scores and a sub-total of points for the group and individual clinicians	✗ View feedback or scores for administrative claims quality measures or the CAHPS for MIPS measure (if applicable) ✗ View your cost feedback (if applicable) • Cost data won't be available during the submission period ✗ Overall preliminary score or preliminary performance category score

Submission Period: QPP Access and Permissions by Organization Type (Continued)

With this Access	You CAN	You CANNOT
Clinician Role	<i>You can't do anything related to Performance Year 2025 submissions with this role</i> <i>This is a view-only role to access final performance feedback</i>	
Staff User or Security Official for a Virtual Group	✓ Access information about the practices (TINs) and clinicians participating in the virtual group ✓ View information about performance category reweighting (including from approved exception applications) ✓ Submit data on behalf of your virtual group ✓ View data submitted on behalf of your virtual group ✓ View measure and activity-level scores and a sub-total of points for the virtual group	✗ View feedback or scores for administrative claims quality measures or the CAHPS for MIPS measure (if applicable) ✗ View your cost feedback (if applicable) • Cost data won't be available during the submission period ✗ View data submitted by individuals or practices in your virtual group (such data wouldn't count towards scoring and would only be considered a voluntary submission) ✗ Overall preliminary score or preliminary performance category score
Staff User or Security Official for a Registry (QCDR or Qualified Registry)	✓ Download your API token (security officials only) ✓ Upload a submission file on behalf of your clients (groups and/or individuals) ✓ Submit opt-in elections on behalf of your clients ✓ View measure and activity-level scores and a sub-total of points for your clients based on the data you submitted for them	✗ View data submitted directly by your clients ✗ View data submitted by another third party on behalf of your clients ✗ View data collected and calculated by CMS on behalf of your clients ✗ Cost measures (if applicable) ✗ View preliminary category level scores

Submission Period: QPP Access and Permissions by Organization Type (Continued)

This table provides a snapshot of what you can and can't do/view regarding MVP reporting based on your access (role) and organization type during the submission period (January 2 – March 31, 2026).

With this Access	You CAN	You CANNOT
Staff User or Security Official for an APM Entity	✓ Access a list of the practices (TINs) and clinicians participating in the APM Entity ✓ View information about performance category reweighting (including from approved exception applications) ✓ Submit quality data through the CMS Web Interface (Shared Savings Program, or other registered APM Entities) ✓ Upload a QRDA III file with your eCQM data (Primary Care First) ✓ Upload a file of APM Entity-level MIPS quality measure data (all APM Entities in a MIPS APM) ✓ View measure and activity-level scores and a sub-total of points on quality data submitted by or on behalf of the APM Entity ✓ View the automatic 50% reporting credit available to some APMs	✗ View feedback or scores for administrative claims quality measures or the CAHPS for MIPS measure (if applicable) ✗ View the Promoting Interoperability data reporting by clinicians and groups in your APM entity ✗ View quality data reported by clinicians and groups in your APM Entity ✗ View preliminary quality performance category score

MVP Quality Measures with MIPS Scoring or Submission Changes

This appendix identifies quality measures (and the associated MVP) that are affected by specification or coding issues, clinical guideline changes during the 2025 performance period, or specifications determined during or after the performance period to have substantive changes. This appendix won't include suppressed or truncated measures that aren't available for MVP reporting.

This list will be updated if additional measures are identified for suppression or truncation in the 2025 performance period.

Quality Measure Number/ Title	Impact Collection Type(s)	Reason for Measure Change	Result	Impact to Scoring Submission and Feedback Expectations
Measure 389: Cataract Surgery: Difference between Planned and Final Refraction MVP: Complete Ophthalmologic Care MVP (M1420)	MIPS CQM	Quality measure implementation resulting in misleading results	Suppressed	This measure will be excluded from scoring if it's submitted, and your quality denominator will be reduced by 10 points.
