

2026 Quality Benchmarks Version History

Purpose: This document identifies any changes to the 2026 Quality Benchmarks file, the 2026 Quality Benchmarks User Guide, or the 2026 Multiple Performance Measure file.

Version History

Date	Location of Change	Change Description
04/23/2026	2026 Quality Benchmarks file	We removed the historical benchmark for IRIS2 (QCDR measure) due to inconsistencies with implementation. We'll attempt to calculate a performance period benchmark based on submission data.
03/02/2026	2026 Quality Benchmarks file 2026 Quality Benchmarks User Guide	Updated to remove the defined topped-out measure benchmark for Measure 141 as it's since been determined that the measure doesn't fully meet topped-out criteria for the 2026 performance period and is therefore eligible to receive a historical benchmark based on 2024 performance.
01/28/2026	2026 Quality Benchmarks file 2026 Quality Benchmarks User Guide 2026 Multiple Performance Measure file	Original posting.
