How to Use This Guide

Please Note: This guide was prepared for informational purposes only and isn't intended to grant rights or impose obligations. The information provided is only intended to be a general summary. It isn't intended to take the place of the written law, including the regulations. We encourage readers to review the specific statutes, regulations, and other interpretive materials for a full and accurate statement of their contents.

Table of Contents

The Table of Contents is interactive. Click on a Chapter in the Table of Contents to read that section.

You can also click on the icon on the bottom left to go back to the Table of Contents.

Hyperlinks

Hyperlinks to the [Quality Payment Program website](#) are included throughout the guide to direct the reader to more information and resources.

Overview

What is the Merit-based Incentive Payment System (MIPS)?

MIPS is one way to participate in the Quality Payment Program (QPP), a program authorized by the Medicare Access and CHIP Reauthorization Act of 2015 (MACRA). The program rewards MIPS eligible clinicians for providing high quality care to their patients by reimbursing Medicare Part B-covered professional services.

Under MIPS, we evaluate your performance across multiple categories that drive improved quality and value in our healthcare system.

If you're eligible for MIPS for the 2023 performance year:

- You report measure and activity data for the [quality](#), [improvement activities](#), and [Promoting Interoperability](#) performance categories. We collect and calculate data for the [cost](#) performance category for you, if applicable.
- Your performance across the MIPS performance categories, each with a specific weight, will result in a MIPS final score of 0 to 100 points.
- Your MIPS payment adjustment is based on your performance during the 2023 performance year and applied to payments for your Medicare Part B-covered professional services beginning on January 1, 2025.

MIPS Reporting Options

There are 3 MIPS reporting options available to MIPS eligible clinicians to meet MIPS reporting requirements.

1. Traditional MIPS
2. MIPS Value Pathways (MVPs)
3. Alternative Payment Model (APM) Performance Pathway (APP)

This resource provides an overview of the similarities and differences between the reporting options and provides information to help you understand which reporting option(s) may be the best for you or your practice.

MIPS Reporting Options At-A-Glance

Who can report?

Traditional MIPS	MVPs	APP
✓ MIPS eligible clinicians in a MIPS APM ✓ MIPS eligible clinicians not in a MIPS APM ✓ Opt-in eligible clinicians ✓ Voluntary reporters	✓ MIPS eligible clinicians in a MIPS APM ✓ MIPS eligible clinicians not in a MIPS APM ✗ Opt-in eligible clinicians ✗ Voluntary reporters Review the 12 MVPs available for the 2023 performance year on Explore MVPs. If there isn't an available MVP relevant to your specialty or scope of care, you should continue to report through traditional MIPS (or the APP if applicable). Learn more about CMS needs and priorities for the development of new MVPs in MVP Development Resources (ZIP).	✓ MIPS eligible clinicians in a MIPS APM ✗ MIPS eligible clinicians not in a MIPS APM ✓ Opt-in eligible clinicians ✗ Voluntary reporters

Check your MIPS eligibility on the [QPP Participation Status Look-up](#).

✓ Individual ✗ Subgroup ✓ Group ✓ Virtual group ✓ APM Entity	✓ Individual ✓ Subgroup ✓ Group ✗ Virtual group ✓ APM Entity	✓ Individual ✗ Subgroup ✓ Group ✗ Virtual group ✓ APM Entity

MIPS Reporting Options At-A-Glance (Continued)

Why should I choose this reporting option? What is the benefit(s) of this reporting option?

Traditional MIPS	MVPs	APP
More choice in quality measure and improvement activity selection. This reporting option is a good choice for those that want or need more flexibility with measure and activity selection based on their patient population and clinical make-up. Under traditional MIPS, you can select from all of the quality measures and improvement activities in the MIPS inventory. Traditional MIPS will eventually be sunset as a reporting option. Learn more about the Transition from Traditional MIPS to MVPs.	Streamlined, cohesive sets of measures and activities. Reduced reporting requirements for some performance categories (refer to quality performance category and improvement activities performance category). Enhanced performance feedback. This reporting option is a good choice for those with a relevant MVP available (review Explore MVPs to see the currently available MVPs). MVPs are the future of MIPS and will be required in future years.	Reduced reporting requirements. This reporting option is a good choice for those participating in a MIPS APM and want to reduce reporting requirements. Note: Shared Savings Program Accountable Care Organizations (ACOs) must report the quality measures required by the APP. The APP is optional for MIPS eligible clinicians who also participate in MIPS APMs.

For traditional MIPS and MVPs - Review flexibilities for small practices in the Comparison of [Reporting Requirements](#) and [Scoring](#) Tables.

MIPS Reporting Options At-A-Glance (Continued)

How do I report my data?

Traditional MIPS	MVPs	APP
- You can collect and submit data for yourself or your practice by manually uploading files and attesting to reporting requirements. - You can report quality measures through a variety of collection types. Review the 2023 Quality Performance Category: Learning About Collection Types. - You can work with a third party intermediary (e.g., Qualified Clinical Data Registry (QCDR), qualified registry) to submit data on your behalf. - You don't need to submit any data for administrative claims measures and cost measures. We'll collect and calculate this data on your behalf.	- You can collect and submit data for yourself or your practice by manually uploading files and attesting to reporting requirements. - You can report quality measures through a variety of collection types. Review the 2023 Quality Performance Category: Learning About Collection Types. - You can work with a third party intermediary (e.g., QCDR, qualified registry) that supports an MVP relevant to you or your practice. - You don't need to submit any data for administrative claims measures and cost measures. We'll collect and calculate this data on your behalf. - For more information about MVP data collection and submission, check out the Prepare for MVP Data Collection & Submission webpage.	- You can collect and submit data for your practice by manually uploading files and attesting to reporting requirements. - You can work with a third party intermediary (e.g., QCDR, qualified registry) to submit data on your behalf. - You don't need to submit any data for administrative claims measures. We'll collect and calculate this data on your behalf.

MIPS Reporting Options At-A-Glance (Continued)

Where do I submit my data?

Traditional MIPS	MVPs	APP
- To submit data via traditional MIPS, you must sign into the QPP website and select Start Reporting on the main page or Eligibility & Reporting from the left-side navigation bar. - You may see multiple Reporting Options available, and you'll choose traditional MIPS and select Start Reporting.	- You must register in advance to report an MVP. For details on MVP registration process, review the 2023 MVP Registration Form and Fact Sheet. Review the Prepare for MVP Registration webpage for additional information. - To submit your data for an MVP that you previously registered for and have been approved, you must sign into the QPP website and select Start Reporting on the main page or Eligibility & Reporting from the left-side navigation bar. - You may see multiple Reporting Options available, and you'll choose MVP and select Start Reporting.	- To submit data via the APP, you must sign into the QPP website and select Start Reporting on the main page or Eligibility & Reporting from the left-side navigation bar. - You may see multiple Reporting Options available, and you'll choose the APP and select Start Reporting. For Shared Savings ACOs, the ACOs' QPP Security Official or QPP Staff User in the ACO Management System (ACO-MS) can access the QPP website using their ACO-MS Username and Password. For more information for Shared Savings Program ACOs, please refer to the Overview of ACO-MS User Access and ACO Contacts tip sheet.

Refer to the [QPP Access User Guide](#) to set up an account if you don't have access. The 2023 Data Submission Guides will be available at the end of 2023.

Comparison of MIPS Reporting Requirements for Traditional MIPS, MVPs, & APP for the 2023 Performance Year

Comparison of MIPS Reporting Requirements for Traditional MIPS, MVPs, & APP for the 2023 Performance Year

Performance Category Requirements

Traditional MIPS	MVPs	APP
MIPS eligible clinicians are evaluated on 4 performance categories: • Quality • Cost • Improvement activities • Promoting Interoperability	MIPS eligible clinicians are evaluated on 4 performance categories: • Quality • Cost • Improvement activities • Promoting Interoperability Each MVP includes the same “foundational layer” comprised of the Promoting Interoperability performance category and population health measures (scored as part of the quality performance category).	MIPS eligible clinicians are evaluated on 3 performance categories: • Quality • Improvement activities • Promoting Interoperability

Comparison of MIPS Reporting Requirements for Traditional MIPS, MVPs, & APP for the 2023 Performance Year

Quality Performance Category

	Traditional MIPS	MVPs	APP
Weight	30% 40% small practices 55% APM Entities The quality performance category will be reweighted if there are no measures available to the clinician.	30% 40% small practices 55% APM Entities The quality performance category won't be reweighted for lack of relevant measures for a clinician.	50%
Measure Requirements	- Select 6 measures from 200+ MIPS and 300+ QCDR measures or an available specialty measure set. - This includes one outcome measure or high priority measure in the absence of an applicable outcome measure. - Automatically evaluated on 4 administrative claims measures. Review available measures on Explore Measures & Activities.	- Select 4 measures from a limited set of MVP specific measures. - This includes one outcome measure or high priority measure in the absence of an available outcome measure. - This can include an outcomes-based administrative claims measures (automatically calculated if selected during MVP registration). This is different from the population health measure selected. - Automatically evaluated on a population health measure (selected during MVP registration). Review the measures available in each MVP on Explore MVPs.	- Report 3 measures required under the APP (SSP ACOs can choose the 10 Web Interface measures instead). - Administer CAHPS for MIPS survey (required for the APP). - Automatically evaluated on 2 administrative claims measures. Review the quality measures on the Quality: APP Requirements webpage.

Comparison of MIPS Reporting Requirements for Traditional MIPS, MVPs, & APP for the 2023 Performance Year

Quality Performance Category

	Traditional MIPS	MVPs	APP
Available Collection Types	- eClinical Quality Measures (CQMs), MIPS CQMs, Medicare Part B claims measures, QCDR measures, Consumer Assessment of Healthcare Providers and Systems (CAHPS) for MIPS Survey. - You can submit measures from different collection types to meet quality performance category reporting requirements.	- eCQMs, MIPS CQMs, Medicare Part B claims measures, QCDR measures (dependent on the measures available in your selected MVP), CAHPS for MIPS Survey (dependent on the measures available in your selected MVP). - You can submit measures from different collection types to meet quality performance category reporting requirements.	- eCQMs, MIPS CQMs, Medicare Part B claims measures, CAHPS for MIPS Survey. - Web Interface measures are only available for SSP ACOs. - You can submit measures from different collection types to meet quality performance category reporting requirements.
Data Completeness	Report performance data for at least 70% of the denominator eligible cases for each quality measure. - eCQMs, MIPS CQMs, and QCDR measures include all-payer data. - Only Medicare Part B claims measures are limited to Medicare patients/encounters.		Report performance data for at least 70% of the denominator eligible cases for each quality measure. - eCQMs and MIPS CQMs include all-payer data. - Medicare Part B claims measures and CMS Web Interface measures are limited to Medicare patients/encounters.

Comparison of MIPS Reporting Requirements for Traditional MIPS, MVPs, & APP for the 2023 Performance Year

Cost Performance Category

	Traditional MIPS	MVPs	APP
Weight	30% 0% APM Entities	30% 0% APM Entities	0% - Not applicable
Measure Requirements	No reporting is required. - Automatic evaluation of all 25 MIPS cost measures based on Medicare claims data. - Reweightings is applied when the clinician or group can't be scored on any of the 25 MIPS cost measures. Review cost measures on Explore Measures & Activities.	No reporting is required. - Automatic evaluation of the MIPS cost measure(s) included in the selected MVP based on Medicare claims data. - Reweightings is applied when the clinician or group can't be scored on any of the cost measures included in the selected MVP. Review the cost measures available in each MVP on Explore MVPs.	Not applicable.

Comparison of MIPS Reporting Requirements for Traditional MIPS, MVPs, & APP for the 2023 Performance Year

Improvement Activities Performance Category

	Traditional MIPS	MVPs	APP
Weight	15% 30% small practices	15% 30% small practices	20%
Activity Requirements	Clinicians in small or rural practices, non-patient facing clinicians, clinicians in a health professional shortage area (HPSA), and clinicians that participate in an APM: Select (from over 100 activities) and perform: 2 medium-weighted activities OR 1 high-weighted activity OR - Participate in a recognized or certified patient-centered medical home or comparable specialty practice (attest to IA_PCMH). All other MIPS eligible clinicians: Select (from over 100 activities) and perform: 2 high-weighted activities OR 1 high-weighted and 2 medium-weighted activities OR 4 medium-weighted activities OR - Participate in a recognized or certified patient-centered medical home or comparable specialty practice (attest to IA_PCMH). Group, virtual group or APM Entity reporting: 50% of clinicians in the group, virtual group, APM Entity must perform the same activity for the continuous 90-day period (but don't have to perform the activity concurrently). Review available activities on Explore Measures & Activities.	All MVP Participants: Select (from the activities available within the MVP): 2 medium-weighted activities OR 1 high-weighted activity OR - Participate in a recognized or certified patient-centered medical home or comparable specialty practice (attest to IA_PCMH). Group, subgroup or APM Entity reporting: 50% of clinicians in the group, subgroup, APM Entity must perform the same activity for a continuous 90-day period (but don't have to perform the activity concurrently). Review the activities available in each MVP on Explore MVPs.	No reporting is required. Automatically receive full credit.

Comparison of MIPS Reporting Requirements for Traditional MIPS, MVPs, & APP for the 2023 Performance Year

Promoting Interoperability Performance Category

	Traditional MIPS	MVPs	APP
Weight	25% 0% small practices 30% APM Entities Reweighting can apply if you meet certain requirements. Review details about reweighting (automatic or through an application) on the Promoting Interoperability Requirements webpage.	25% 0% small practices 30% APM Entities Reweighting applies just as it does in traditional MIPS.	30% Reweighting applies just as it does in traditional MIPS.
Activities and Attestation Requirements	Report the complete Promoting Interoperability measure set and attestations.	- Report the complete Promoting Interoperability measure set and attestations. - Subgroups are required to submit the Promoting Interoperability data of their affiliated group. - This performance category is considered part of the foundational layer, which means it's the same across all MVPs.	Report the complete Promoting Interoperability measure set and attestations.

Comparison of MIPS Scoring for Traditional MIPS, MVPs, & APP for the 2023 Performance Year

Comparison of MIPS Scoring for Traditional MIPS, MVPs, & APP for the 2023 Performance Year

Quality Performance Category Scoring: Measure-level Scoring

Traditional MIPS	MVPs	APP
For the 6 required measures: Quality measures are evaluated for case minimum and data completeness. - Measures that don't meet case minimum or data completeness criteria earn 0 points (small practices earn 3 points). - Required but unsubmitted measures will receive 0 points. Measures that meet case minimum and data completeness criteria are scored against a benchmark. - Measures that can be scored against a benchmark earn 1 – 10 points*. - Measures without a benchmark will earn 0 points (small practices earn 3 points). *Certain topped out measures are capped at 7 points.	For the 4 required measures: Quality measures are evaluated for case minimum and data completeness. - Measures that don't meet case minimum or data completeness criteria earn 0 points (small practices earn 3 points). - This applies to any outcomes-based administrative claims measures if available in the MVP and selected during MVP registration. - Required but unsubmitted measures will receive 0 points. Measures that meet case minimum and data completeness criteria are scored against a benchmark. - Measures that can be scored against a benchmark earn 1 – 10 points*. - Measures without a benchmark will earn 0 points (small practices earn 3 points). *Certain topped out measures are capped at 7 points.	For required measures: Quality measures are evaluated for data completeness. - Measures that don't meet data completeness criteria earn 0 points (small practices earn 3 points). - Required but unsubmitted measures will receive 0 points. Measures that meet case minimum and data completeness criteria are scored against a benchmark. - Measures that can be scored against a benchmark earn 1 – 10 points**. **Topped out measures won't be capped at 7 points. Required measures that don't meet case minimum criteria or have a benchmark will be excluded from scoring (and the denominator will be reduced).

Review the [2023 Quality Benchmarks](#) for more information, such as which measures are capped at 7 points.

Comparison of MIPS Scoring for Traditional MIPS, MVPs, & APP for the 2023 Performance Year

Quality Performance Category Scoring: Measure-level Scoring (Continued)

Traditional MIPS	MVPs	APP
Measures in their first year of the program will earn a minimum of 7 points, provided data completeness is met. Measures in their second year of the program will earn a minimum of 5 points, provided data completeness is met. If the CAHPS for MIPS Survey measure is administered as 1 of the 6 required measures, it will earn 1 - 10 points based on comparison to its benchmark. If the group or APM Entity doesn't meet minimum sampling requirements, CAHPS will be excluded from scoring (and the denominator will be reduced). Administrative Claims Measures (evaluated in addition to the required measures) Measures that meet case minimum requirements will be scored against a benchmark and receive 1 – 10 points. Measures that don't meet case minimum criteria or that don't have a benchmark will be excluded from scoring.	Measures in their first year of the program will earn a minimum of 7 points, provided data completeness is met. Measures in their second year of the program will earn a minimum of 5 points, provided data completeness is met. If the CAHPS for MIPS Survey measure is administered as 1 of the 4 required measures, it will earn 1 - 10 points based on comparison to its benchmark. If the group or APM Entity doesn't meet minimum sampling requirements, CAHPS will be excluded from scoring (and the denominator will be reduced). Population Health Measures (evaluated in addition to the required measures) Measures that meet case minimum requirements will be scored against a benchmark and receive 1 – 10 points. Measures that don't meet case minimum criteria or that don't have a benchmark will be excluded from scoring.	The CAHPS for MIPS Survey measure is required and will earn 1 - 10 points based on comparison to its benchmark. If the group or APM Entity doesn't meet minimum sampling requirements, CAHPS will be excluded from scoring (and the denominator will be reduced). Administrative Claims Measures (evaluated in addition to the required measures) Measures that meet case minimum requirements will be scored against a benchmark and receive 1 – 10 points. Measures that don't meet case minimum criteria or that don't have a benchmark will be excluded from scoring.

Comparison of MIPS Scoring for Traditional MIPS, MVPs, & APP for the 2023 Performance Year

Quality Performance Category Scoring: Category-level Scoring

Traditional MIPS	MVPs	APP
Achievement points Available points¹ (10 x # of total measures) + Small practice bonus (if applicable) + Improvement scoring	Achievement points Available points² (10 x # of total measures) + Small practice bonus (if applicable) + Improvement scoring	Achievement points Available points³ (10 x # of total measures) + Small practice bonus (if applicable) + Improvement scoring

¹ **Traditional MIPS:** Maximum of 100 points (6 required measures + 4 administrative claims measures)

² **MVPs:** Maximum of 50 points (4 required measures + 1 population health measure)

³ **APP:** Maximum of 60 points (3 required measures + CAHPS for MIPS Survey measure + 2 administrative claims measures) or 130 points (ACOs only): 10 CMS Web Interface measures + CAHPS for MIPS Survey measure + 2 administrative claims measures)

The available points will decrease if you can't be scored on one or more administrative claims measure (traditional MIPS and APP reporting) or the population health measure (MVP reporting).
