

# Transition from Traditional MIPS to MVPs

Quality Payment  
PROGRAM

Traditional MIPS

MIPS Value Pathway (MVPs)

Alternative Payment Model (APM) Performance Pathway (APP)

Begin voluntary  
MVP and subgroup  
reporting

Future of MIPS

End of  
Traditional  
MIPS

CMS aims to end  
traditional MIPS  
in a future year

MVP Reporting  
Becomes  
Mandatory

CMS aims to make MVP  
reporting mandatory in  
a future year

## Benefits of Transitioning to MVPs Now:

- Receive specialized assessment of quality of care
- Report on clinically relevant topics that represent clinical specialties or conditions
- Provide a streamlined smaller set of measures
- Help ensure successful implementation before Traditional MIPS is no longer available as a reporting option

**Note:** Traditional MIPS would be unavailable pending future rulemaking

Beginning with the 2026 performance year, the group participation option is only available to single specialty groups or multispecialty groups that are small practices.
