I. Introduction

The Medicare Access and CHIP Reauthorization Act of 2015 (MACRA) replaced a patchwork collection of reporting programs with a single system where Medicare physicians and clinicians have a chance to be rewarded for better care. There are two paths in this program:

- Merit-based Incentive Payment System (MIPS)
- Advanced Alternative Payment Models (APMs)

Historically, under the Physician Quality Reporting System (PQRS), groups were required to register to participate in the PQRS Group Practice Reporting Option (GPRO) utilizing one of the available submission mechanisms: Qualified Registry, Electronic Health Record (EHR) (via Direct EHR using certified EHR technology (CEHRT) or CEHRT via Data Submission Vendor), Qualified Clinical Data Registry (QCDR), and CMS Web Interface (for groups with 25 or more eligible professionals only), as well as groups that intended to administer the Consumer Assessment of Healthcare Providers and Systems (CAHPS) for PQRS survey.

Now that the PQRS is sun-setting in 2018 and being replaced with the Quality Payment Program, groups participating in the Merit-based Incentive Payment System (MIPS) are **not** required to register, **except** for groups of 25 or more clinicians that intend to utilize the CMS Web Interface and/or administer the CAHPS for MIPS survey. Additionally, if you are participating in a Medicare Accountable Care organization (ACO), your ACO is required to submit quality data to CMS on your behalf and you do not need to create an EIDM account.

A "group" is defined as a single Medicare billing Taxpayer Identification Number (TIN) with 2 or more individual ECs (including at least one MIPS eligible clinician), as identified by their individual National Provider Identifier (NPI), who have reassigned their billing rights to the TIN.

For the transition year of MIPS (2017), groups can register to utilize the CMS Web Interface and/or administer the CAHPS for MIPS survey between **April 1, 2017 and June 30, 2017 (11:59pm EDT)** via <https://portal.cms.gov> using a valid Enterprise Identity Management (EIDM) account.

This guide provides step-by-step instructions on how a group can register to participate in MIPS utilizing the CMS Web Interface and/or administer the CAHPS for MIPS survey for the 2017 performance year. This guide also includes instructions for modifying registration information and canceling registration for the CMS Web Interface and/or CAHPS for MIPS survey in the registration system.

Additional information about the Quality Payment Program, submission mechanisms and more can be found on the Quality Payment Program <https://qpp.cms.gov/>.

If you have questions or need further assistance regarding an EIDM account, please contact the Quality Payment Program by phone at 866-288-8292 (TTY 1-877-715-6222) or by e-mail at QPP@cms.hhs.gov. Business hours are Monday-Friday from 8:00am to 8:00pm ET.

II. Getting Started

Create and Access your EIDM account. An individual from the group can sign-up for a new EIDM account or modify an existing account at <https://portal.cms.gov>. This step should be completed NOW to avoid any last minute delays in obtaining an EIDM account. An EIDM account must be obtained in advance in order for a group's registration to be submitted before the registration period closes on **June 30, 2017 at 11:59pm EDT**.

- To determine whether your group already has an individual who can register the group to utilize the CMS Web Interface and/or administer the CAHPS for MIPS survey, please contact the Quality Payment Program Service Center and provide the group's TIN and the name of the group.

Prepare to Register. Please gather the following information before you begin to register your group (as identified by its Medicare-billing TIN) in the registration system:

- Organization Information: Group Name, Entity Name, and Organization Mailing Address.
- Requestor Information: First Name, Last Name, Email, and Phone Number.
- Program Contact Information: First Name, Last Name, Email, Phone Number and Address.
- Technical Contact Information: First Name, Last Name, Email, Phone Number and Address.
- Determine your group size of clinicians: 2-24, 25-99, or 100 or more
- Determine your selection:

- CMS Web Interface (for groups with 25 or more eligible clinicians)

Note: Some groups may have zero Medicare beneficiaries assigned for the CMS Web Interface as a result of patient attribution and sampling rules. If a group does not have any Medicare patients for any of the CMS Web Interface measures, the group will not meet the criteria for satisfactory reporting using the CMS Web Interface. CMS will notify groups that do not have any Medicare beneficiaries assigned, and such groups will need to participate in MIPS utilizing a different available submission mechanism.

- CAHPS for MIPS Survey (for groups with 2 or more eligible clinicians)

Note: In 2017, the CAHPS for MIPS survey is optional. For groups that have elected to administer the CAHPS for MIPS survey in 2017, you are responsible for selecting and paying a CMS-approved survey vendor to administer the surveys on your behalf. If it is determined that a group does not have a sufficient number of beneficiaries to produce valid and reliable CAHPS data, CMS will notify the group indicating that the group cannot participate in the administration of the CAHPS for MIPS survey and another data submission option is recommended. Groups should make sure to report on sufficient number of measures and activities via their primary chosen submission mechanism (Qualified Registry, QCDR, EHR, or CMS Web Interface) to meet program requirements.
