

Where do I go for help with the Quality Payment Program?

There is a new Quality Payment Program [website](#), which will explain the new program and help clinicians easily identify the measures and activities most meaningful to their practice or specialty. This tool allows interested clinicians and practice managers to browse and explore the program options that best fit their practice.

CMS has organizations on the ground to provide help to clinicians who are eligible for the Quality Payment Program:

TCPI

Transforming Clinical Practice Initiative (TCPI): TCPI is designed to support more than 140,000 clinician practices over the next 4 years in sharing, adapting, and further developing their comprehensive quality improvement strategies. Clinicians participating in TCPI will have the advantage of learning about MIPS and how to move toward participating in Advanced APMs. Click [here](#) to find help in your area.

QIN-QIOs

Quality Innovation Network (QIN)-Quality Improvement Organizations (QIOs): The QIO Program's 14 QIN-QIOs bring Medicare beneficiaries, providers, and communities together in data-driven initiatives that increase patient safety, make communities healthier, better coordinate post-hospital care, and improve clinical quality. More information about QIN-QIOs can be found [here](#).

APM Learning Systems

If you're in an APM: The Innovation Center's Learning Systems can help you find specialized information about what you need to do to be successful in the Advanced APM track. If you're in an APM that is not an Advanced APM, then the Learning Systems can help you understand the special benefits you have through your APM that will help you be successful in MIPS. More information about the Learning Systems is available through your model's support inbox.

We want to hear from you

Today's final rule with comment period incorporates input received to date, but it is only the next step in an iterative process for implementing the new law. We welcome additional feedback from patients, caregivers, clinicians, health care professionals, Congress and others on how to better achieve these goals. HHS looks forward to feedback on the final rule and will accept comments until 60 days after the date of filing for public inspection.

Comments may be submitted electronically through our [e-Regulation website](#).
